

LF TRADING

FABRICS

LF Trading is a family owned business based in Belgium. Offering natural fabrics, timeless linens and having the most beautiful colors is a passion Michèle Lievens shares with her father Filip and mother Dorine.

LF trading has realized plenty of high end collections already through working closely with traditional Belgian mills. We are constantly chasing the most natural yarns in combination with unique colors and light washed finishings.

This is how LF Trading comes every year with a small new collection that is always elegant, timeless and natural.

---

*natural fabrics,  
timeless linens  
and the most  
beautiful colors*

---

Fabrics like this precious binding of linen and wool show directly the exclusivity of the fabrics. Keep in mind most of LF Trading-fabrics are also prewashed and washable, even this collection George.

# worry-free fabrics

Fabrics woven exclusively with solution-dyed yarn for guaranteed colourfastness to UV rays. Their protective anti-stain finish makes them amazingly easy to clean.

WATER & STAIN  
RESISTANT

ENVIRONMENTALLY FRIENDLY  
100% RECYCLABLE

100%  
NON TOXIC

As we also love to think about the maintenance issue, we preferred to launch a polypropylene collection. Fully recycled is one thing but did you know that those fabrics are all for outdoor use?

A close-up photograph of a cream-colored fabric with a complex, woven geometric pattern. The pattern consists of interlocking rectangular and square shapes, creating a textured, three-dimensional effect. The fabric is draped over a rounded surface, and the lighting is soft, highlighting the intricate details of the weave.
